Committee: Joint Special Session Committee On Transportation
Funding

Measure, Appointment or Topic: HB3991

It is hard to support this bill when it is being promoted under such underhanded means. Trying to call a special session on a Saturday/ Sunday hearing on a major holiday yes(Labor Day weekend) shows the deceit of our government trying to push a bill that is very much opposed by the working people of Oregon. Laborers are tired of paying for "over budgeted" projects due to poor management of our hard earned tax dollars. This bill truly hits every Oregonian into further decline in our financial status. As farmers in the Willamette Valley, our family will greatly be affected if this bill is passed. With every part of our operation being hit with increased pricing, we will eventually be financially unable to survive. No more taxes??. Learn to use the funding available and live within those funds. That is the only option we have with our farming operations if we want to remain in this occupation. I truly believe that if wasted funds were called out and made for those department to be held accountable, then this session would NOT even be necessary??. Governor Kotek and all those supporting this bill, wake up and see how detrimental this will be to OREGON.
