As a born and raised Oregonian, I must say I am disgusted to no end with the representation in Salem. Particularly the Governor and Democrat party.

You've seen from the previous testimony that Oregon is not happy with this proposal. You will also note that alternative funding is available and should be used before the largest tax in Oregon history is even discussed.

This tax would put businesses out of business, drive out oregonians and have a negative impact overall on the state.

The politicians in Salem are showing their obvious disregard for their constituents. This is driven primarily by special interest groups such as the SEIU.

Very little of this tax will actually go to ODOT, the department that needs a little bit more money.

Stop your pet projects which are destroying Oregon and also are deemed illegal by our federal government. No more DEI.

No more defending illegal aliens. That is exactly what they are, they came across the border illegally.

No more funding corrupt NGO's.

By ending the above items, not only would ODOT easily be funded, but we would have an opportunity to lower tax rates and actually bring business back.

I would like to be able to say all of this without feeling complete anguish and disgust with our current Governor and Democratic Representatives. Unfortunately that is not the case because I believe you are deliberately destroying this state to create a communistic form of government. If this tax passes, I will know that I was right. Which I already do.

I will ask again for you to consider not passing this bill, and actually look for funding elsewhere, in areas that should not be funded to begin with.

Not hopeful in Oregon,
Randy Wilhelm
