

NO MORE TAXES

The State of Oregon is out of control. We the tax paying residents are about out of money from the continuing taxes that are being put upon us.

Seniors have been battling with rising rents in Mobile Home Parks. Finally it has been stopped at 6% annually but for some it came too late. Some are already paying over half of their Social Security for rent to stay in their own homes and on the edge of having to walk away because who can afford a new mortgage and a large space rent. Forget about paying the rising power bill, rising cost of groceries and medications and general cost of living.

Now, you want to add another tax we cannot afford just because the Oregon Department of Transportation cannot budget like we have to each and every day. Your wanting to take more out of our dwindling budgets because you cannot live within yours?? NO! NO MORE TAXES!!

Please if any of you have any morals or a bit left in your hearts, vote NO!
