

We simply can not afford any more tax hikes or dmV fees, gas prices have already been raised too high in this state recently. And who will be able to pay these dmV fees if this passes. I won't. Rent prices have gotten so horrible in recent times under democratic leadership my neighbors can't afford their 2 bedroom apartment anymore and are facing homelessness. These tax hikes and fees will only hurt Oregonians, not help them in any such way. And will add to our current horrendous and under supported and already heavily increasing homeless population. It's

as if Tina Kotek hates Oregonians and only thinks of herself. She's an appointee and should be removed from office. We should be allowed to elect our officials without mail in voting to avoid the obvious fraud we've experienced since 1980. Not have have our officials appointed. And these tax hikes and fees as well as our current homeless and drug epidemic are a perfect example of that. I oppose HB3991 and this special session is a sick joke and a travesty to even be thought of against Oregonians. Tina Kotek we keep telling you NO. Let my people GO. -Caleb Sollars, Eugene, OR.
