Committee:	Joint Special Session Committee On Transportation Funding
Measure, Appointment or Topic:	HB3991

This bill is unfare and will place great hardship on my family. First you push for EV'S and hybrids and now you want to place extra fees on them. Hybrids do run on gas and most charge up there batteries when running. There was a lot of money spent on charging stations which should have been spent on roads, our roads are in terrible shape. In Lincoln County they redid sidewalks that didn't need to be replaced and added crosswalks that went to no where, this was money that could have gone to roads. I can name more reasons but I won't because you all know this is an over taxing bill that will place more taxes to the people who are already at the braking point.
