This state's governor is out of control. It is completely underhanded to have sessions late at night and on holiday weekends in the hope of screwing the hard working people of this state. ODOT has mismanaged money, not taken care of the road when they had the money and the employees have joked about needing low work ethic to work for the state. Snow plow operators laughing how they drive around all day and not put there plows down, telling high school kids working summer jobs to not work so hard that they are making the adults look bad. We pay more than enough and do not need more taxes.
