You are taxing us to death. It's time to get rid of the pet projects and reallocate the millions of tax dollars that have been put into places that don't have to do with our roads. This is not California and we Oregonians do not have jobs that support our families due to Oregon eliminating the foundation employment we relied on in the past. Mills and logging used to support us all and now people are lucky to have a low paying retail job or two. We can't afford MORE gas taxes. We can't afford more income tax. You don't even see the employers leaving the state due to high taxes. Without employers you will have no one to pay people to work and they too will leave. Democrat leadership in this state has done nothing to improve Oregon. It's time to wake up and live within your means just like we have to.
