We the public do not want any more taxes. This is ODOT's and the government's fault for the overspending and they should take the responsibility accordingly. If this means people lose jobs so be it, especially preferably people in high positions who should have known how to handle the money better. This is a case of mismanagement in the worst way. Do not punish people who are already struggling to make ends meet due to ODOT and the government mismanagement. I and many others oppose this bill.

Also, having a special session on a Sunday and a holiday is super shady and tells us the people that you do not have our best interest at heart. You have the chance to make this right and kill this bill immediately.

Thank you for your consideration.
