Measure, Appointment or Topic:	HB3991

This transportation bill is a ridiculous money grab against Oregonians. We are being taxed to death and absolutely cannot afford to have one more penny wrung from our dollars. So many projects over budget, money missing and unaccounted for. Instead of using layoffs of the blue collar transportation workers as leverage, let's start at the top, fire those that have wasted so much in the first place

Hire those that can balance the budget they have which is way to large anyway

Oregon has been blue for so long it's been tax and tax and tax more while no accountability for funds. We as a family cant survive more and keep anything we have built, electricity bills over 700 a month, gas. Already too high, this bill needs to have a no vote, no means no, nothing has changed since the last time kotex tried to cram this down our throats
