Committee: Joint Special Session Committee On Transportation
Funding

Measure, Appointment or Topic: HB3991

I request that the project agendas for the state of Oregon be reevaluated using common sense and not someone else's pie in the sky agenda. Re-title (release) the available dollars already set aside so they can be used for ODOT without raising our taxes. Open that fund for necessary day to day services that ODOT needs to provide for the safety of road maintenance in our state, instead of raising taxes to cover the shortage due to reckless spending & unrealistic project promises that have resulted in failed attempts. We can not afford to support your careless actions any longer. Time for accountability & audits and working within the generous budget already in place. Oregon is unaffordable to live in & ranks embarrassingly so, in taxes, education, environmental overreach. Your agenda is destroying our farming industry, and creating family & business debt that will be near impossible to recover from. Small businesses & families are leaving this state just to be able to afford to live. Because of failed leadership and an agenda that doesn't seem to care about the hardworking people of this state.
