I've resided in this state since mid 1971. This current proposal is one of, if not the, most absurd "wants" the governor has ever put forward. As our business base declines and our population of elderly increases to increase taxes and fees all the while having enough funds already in the budget displays a total lack of management skills. There are \$15,000,000 USD appropriated to pay for legal services for "ILLEGAL PERSONS" legal services. There are untold funds to address the homeless situation with next to no positive action being taken. How many core services of ODOT are being covered and how many non core or "wants" are already covered that we could roll back to cover budget? In addition I absolutely opposed a nonelected board being able to tax, change tax rates, change appropriations of our funds. All taxations should be put to vote of the people.

Please vote no on this fiasco in its entirety! Elections are coming and WE THE PEOPLE are following your actions very very closely!
