Funding

Measure, Appointment or Topic: HB3991

The new transportation proposal is wasteful and basically just to please state employees, unions and institute a whole host of excessive taxes that are not needed. How does raising fees on EVs ( use of which the state supposedly supports) make any sense? Building more public transit is wasteful in that it already exists in large amounts in the major metro areas. This is just a “pork” filled bill, designed to preserve and enhance public employees employment and union dues. The legislature should shrink this bill by a large amount and make do with money they already collect. Please oppose this bill, it was basically defeated two months ago, and it’s time to do so again. Thank you.
