This bill does nothing to help our current situation. Fix the current ODOT problems using the current funds, find out where past funds went (audit and accountability), and stop threatening to fire maintenance workers when other solutions are possible (get rid of DEI positions, environmental positions, etc). No family could run their home expenses the way this agency has mismanaged OUR tax payers money! No more taxes! Accountability and scrutiny is needed. Stop picking our pockets and fix the issues with the funds already levied.
