Salem, OR 97301

RE: Port of Portland Testimony in Support of HB 3991

Dear Co-Chairs Wagner and Fahey, Co-Vice Chairs Bonham and Drahan, and Members of the Committee:

The Port of Portland (Port) supports HB 3991 as introduced to provide additional necessary funding for state and local transportation agencies in Oregon. The mission of the Port is to build shared prosperity through travel, trade, and economic development, which we achieve through the operation of large economic engines like Portland International Airport, Hillsboro Airport, three active marine terminals, and six business parks. The successful operation of each of these facilities is directly tied to the safety, reliability, and efficiency of the surrounding surface transportation system to which they connect.

Thank you for working diligently toward a package that meets Oregon's urgent transportation needs, and for your continued leadership. The Port respectfully urges your support for HB 3991 as introduced. Thank you for your consideration.

Sincerely,

Dave Robertson
Chief Public Affairs Officer
