To all the people that say they represent the people of Oregon,  
The people of Oregon do not want this, and all of you are aware of this. We have to live on a budget, we don't have the luxury of putting the short fall on the shoulders of the tax payer. You spend and take money from places you shouldn't, then you cry we don't have enough. You try to make the people fearful by saying we won't have the crews for winter weather, but there isn't any talk about purging the upper tier of ODOT.

You continue to run Oregon into the ground, never learning from other states because all that matters is the agenda of a one party state.

You as elected officials seems to only care about your next election not the people who struggle to keep their businesses open, their children safe and live without the constant tax assault from the government.

Spend the tax money where it should be spent, live within your means.
