

As a tax payer in your state I urge you to vote for no new taxes on gas, transportation or DMV fees.

My family and neighbors are struggling in this economy, we are the sandwich generation raising small children and caring for aging parents. We spent every bit of savings to buy a home or to pay the deposit on a rental and we are being hammered by taxes.

Our roads are in disrepair, potholes so big they throw off the car's alignment and bridges with narrow lanes and wide unused bike lanes.

Please prioritize fixing our roads and bridges with the funds we already pay with our crippling taxes.

Audit ODOT. We as taxpayers and workers must find a way to live within our means our state government has to do the same.

Respectfully yours,  
Clare Odom, a constituent
