Measure, Appointment or Topic: HB3991

Our state's budget is equal to WA but with half of the population. Our essentials: gas, electricity, and water, have ballooned more than 40% over the last 4 years. Our businesses are leaving the state while corporations continue with layoffs. How much more do our legislatures expect us to pay for us to survive? Our state's population is declining because of over taxing and inefficient services such as ODOT. From missing budgets, project, timelines and billions nothing is right with ODOT. Yet, this will allow them to continue their failed services. Did I mention they threatened the public by laying off the frontline workers but kept their board members? Yes, a public entity just threatened the public. No thanks.
