As an Oregonian with unique values enjoying the Labor Day weekend with my family, I am barely able to contain my contempt for having this session in the first place. The Governor is not unaware of her unique opportunity to push through the legislation & I oppose that but also the fact that nothing has been done to solve ODOT's budget for years... now our taxes PAY debt service! How do you say mismanagement! #NoNewTaxes surely you could make this a productive session and adopt the reconciliation. Bill presented and then form a bipartisan committee to address the problems that have been kicked down the road for years you are the leaders please lead. I will hold in great contempt any representative that does not agree to do due diligence and take responsibility.

Respectfully, L Hafer
