Topic: HB3992

Please vote no on this absurd spending proposal and any other proposed legislation that gives our petulant governor emergency powers for no reason at all. Her failure to correctly budget and account for ODOT is not anyone else's emergency especially working families in Oregon whose payroll tax will double with this obscene rate increase. Nevermind our state has bled 25,000 jobs this year in the private sector, but we just can't wait until the normal session resumes and let anyone from the state unions be unemployed even for one day. It's insulting to the intelligence that a state of emergency be called over this.

You have plenty of money from us already. We don't have any more room in our budgets, figure your own out!
