Funding

Measure, Appointment or Topic: HB3991

To whom this may concern:

Regarding the transportation funding initiative, we would like to say a hard NO to the OreGo program. We are encouraging people to go greener so why should they be penalized? This, of course, would make it LESS attractive to switch from and ICE to EV.

It is good that EVs and hybrids are gaining popularity, but since Oregon now has the 6th highest gas tax in the nation for ICE vehicles, (if you believe this site <https://worldpopulationreview.com/state-rankings/gas-taxes-by-state>)and it will go up to the 4th highest in the nation if the gas tax goes to .46how is it that Oregon needs to get even more revenue from the EV sector?

Sincerely,

Theresa and Rex Capri
