Testimony in Opposition to HB 3991

I oppose HB 3991, another scheme that will only tax Oregonians more during a time when we are all currently struggling to survive. Especially when it has already been proven that there are other practical options to fix these issues without raising taxes!

Oregon is already sitting at or near the worst of all state rankings in nearly all areas, clearly showing your multiple idea's of how to fix our state are producing the completely opposite results. Pitiful. You clearly don't understand Cause and Effect. What happened to looking at the real facts and adjusting for the good of Oregon, instead of throwing us under the bus once again by adding more taxes?
