We moved here 22 years ago when we retired due to the fact Oregon was an affordable state and beautiful for retirees. This has completely changed. Oregon is still beautiful but NO longer affordable. We still have many years in us so therefore if this passes we will ge looking for a new location as will many of our friends. The politicians always punish the taxpayers for their mishandling of funds. We have to live within our means you need to learn the same or all you will end up having here are homeless. Look at all the people now who are living in their RV's in RV parks.
