

Submitter: Charles Mayes

On Behalf Of:

Committee: Joint Special Session Committee On Transportation
Funding

Measure, Appointment or Topic: HB3991

I've been watching and listening to the past two days of this special session and it's very plain to see that both sides including the one party rule (Democrat) know that everything in this transportation package is wrong for ODOT and wrong for the taxpayers. The governor and her administration need to live within their budget and as of right now, pork projects are not within the budget. The governor has already made decisions that will detrimental to Oregonians by having federal funding stripped from Oregon. I know that there are special interests groups that need these pork projects to support themselves and their members but does nothing but put Oregonians further behind. I truly wish that both parties including the majority party would set their special interest groups needs aside and show bipartisan support and both parties walkout and send the governor and the special interest groups that you are following your oath and standing up to do what is right for Oregon.
