ODOt and all government workers should "expect" the same consequences as private businesses when the misuse or misappropriate.funds. Recently, Intel.has.had.to lay off thousands of Oregonians as well as Nike but you want to raise taxes on us to support 400 state jobs? And a.reportes \$290 million is to pay down debt owed? The fact that government and government entities can carry that kind of debt without looking into why is EXACTLY why we should not bail them out. Most of us are either living check to check or what little we have left is going to support our older parents or 30 year old children in this state. For all that matter, just STOP. We honestly can't take anymore. And really Tina, on vacation while YOU called the special session?
