I vehemently oppose this bill. ODOT needs to be restructured and live within their budget means. They have proven they are not responsible as they decided instead of building a new bridge and update 205 as promised in the 2017 HB, they chose to waste it on non essential projects projects like DEI and paying union workers much more than the normal wages, and allowing contractors to go over time and budget. They should be held accountable for the excessive spending and work within the budget they have now. Cut the extra fluff, and get back to what the real reason they are there -fixing and maintaining roads.

I've already sent an email to my senator about the opposition and I REALLY can't stand this second (or now third) go around to be sneaky AND NOT LISTEN TO THE PEOPLE OF OREGON.

So I will repeat my opposition once again. No on HB 3992.
