I oppose this bill and am asking for you to do the same. We don't need further tax burdens on Oregonians. We are struggling already with the extremely high tax rate in this state. Where is the money going? We need accountability and transparency with every tax dollar.

ODOT is not underfunded, it has stepped out of its lane and core purpose/function. At this time, building and maintaining roads is the highest priority, not electric buses etc.

In Oregon, businesses are closing and leaving taking jobs with them because of the excessive taxes. People are leaving as well. This is not sustainable.

Please do the right thing and say no to this bill. And if you all need help figuring out where cuts can be made, I would be more than happy to look it over and make recommendations.
