PLEASE listen to the voters and citizens of Oregon who elected each of you. DO NOT continue to increase taxes and fees - the people of Oregon cannot continue to "feed the beast" of insatiable spending. Instead, trim the fat -- reduce the number of mid-management and executives, even reduce the richness of the benefit packages offered, like other businesses are forced to do when revenues don't keep up with needed expenses. Keep the people who actually do the work, not the executive level. Importantly keep the decision making for who is in charge of ODOT and other agencies with the commission, not letting the governor have sole authority for that. As a resident of Oregon, it feels like the legislature cares more about the governor and your own personal interests than that of the people you've been elected to serve and represent. Please do your job and vote like your constituents want - which is NO to the additional spending and taxes. Thank you.
