Measure, Appointment or Topic: HB3991

I work for a small business, which is based in Washington County. She is struggling to keep her doors open, between the inability to get products to sell (because things really are still not available since Covid) and the ever-increasing minimum wage hikes, she is in real danger of having to close her doors. I realize that in Taxing Tina's grand scheme of things, losing another business isn't really important, but I need my job too! Why do we have to keep on paying for failed policies?

My question for all of you is quite simple. How many private sector jobs will be lost if this bill passes?
