Measure, Appointment or Topic:	HB3992

We Strongly oppose this HB 3992 for plain and simple economics. You need to find the money somewhere else within the budget you already have. That is what everyone else has to do daily. We are a small family farm and have been in business since 1988. Through the years what we are paid for our produce fluctuates greatly. The cost of doing business has gone up tremendously and we have no control what we are paid. That price determined by the buyer. We have to adjust wherever we can. The state transit tax was supposed to help pay for transportation. Fuel tax is for road repairs and new highways. If you haven't spent wisely that is your problem not ours the tax payer! Find the money somewhere else and learn to live within your means like everyone else has to!
