Measure, Appointment or Topic: HB3992

My name is Erica C., I am a resident of Oregon, and I am here today to say clearly:  
Enough is enough.

Oregon families are already struggling with the high cost of gas, housing, and groceries, and now this bill wants to impose even more taxes and fees under the excuse of “fixing” our transportation system. We cannot keep placing the burden on working people, low-income families, small businesses, and those who are barely making ends meet.

This proposal punishes the very people who depend on their cars to get to work, take their kids to school, or go to the doctor. It is unfair, regressive, and completely disconnected from the realities of our communities.

Yes, we want a safe and modern transportation system, but that cannot be achieved by squeezing more out of everyday people. Enough is enough. We need real, equitable, and sustainable solutions not another tax disguised as progress.

I strongly urge our legislators to reject this bill. Stop putting the burden on those who can least afford it and start working toward solutions that reflect fairness and true responsibility.

Sincerely,  
Erica Cuesta
