To all Oregon State Representatives,

Most Oregonian's are already struggling to make ends meet. The last thing we need is more taxes to make it harder! We are already paying some of the highest taxes in the nation!

A transportation package of 5.3 billion was passed back in 2017 that was supposed to address maintenance of highways and bridges. Nothing was fixed. Where did all that money go?

ODOT does not need more money, they need to use the money they have more effectively. THEY NEED TO LIVE WITHIN THEIR MEANS!

Please vote NO on HB3992!!

Respectfully,

Beverly

A Oregonian tired of being used as an ATM
