OPPOSE MEASURE 3992

This transportation bill was so urgent that Governor Kotek called a special session and WHERE WAS SHE?

Need more funds, license/register/ and demand insurance coverage for the bicycles using the infrastructure.

Perhaps projects would not be so costly if the Governor had not signed " Executive Order No. 24-31 ("PLA Executive Order"), requiring Project Labor Agreements (PLAs) on nearly all state construction projects in Oregon."

Sadly, the Oregon Legislature has not proven to be good stewards of the taxpayers' monies.

The legislature and Governor appear to care more about the public service sectors employees than those employed in the private sector.

The ruling party in Salem has nothing over the same Federal Government they complain about almost daily.

ODOT currently focuses less than 6% of budget on road maintenance & repair. Why is that?
