This is too much of a burden for hard-working families. There are other things we can do besides raising taxes to meet our mutual goals. A good place to start would be better accountability with the funds that have already been provided. The projects keep expanding while regular maintenance is not prioritized. Please don't ask Oregonians to tighten their belts any further without tightening things up on these projects. We already voted NO on the increase. I am praying for those on both sides of the issue. Please listen to your constituents and find a different way forward together.
