I am incredulous that the governor & the Democratic Party are so completely out of touch with their constituents that they would support this bill & try to force it through. You seem to have no idea what a burden this will be to families struggling to make ends meet every single month, let alone trying to save money. What about senior citizens & people with disabilities living on a very meager fixed income?

Shame on every single person who votes for this.

It's time to let this bill die & sit at the table with Republicans to solve this problem by redistributing funds. Honestly, the average ODOT worker will also be adversely affected by this bill. Do they understand that? I am humbly asking everyone of you to vote no on this. There are better options.

Thank you for this opportunity to submit testimony.
