Measure, Appointment or Topic: HB3991

As a private Oregon resident and every-day public transit user, I urge the Legislature to pass this transportation package, in particular the increases to public transit funding. Public transit is already facing drastic cuts in service, and failing to pass this package would make the existing budgetary gaps so much worse. Public transit is vital to my own well-being, and as somebody living outside of a city center, I worry about my neighborhood in particular seeing service cuts, and so many suburban neighborhoods like mine.
