Committee: Joint Special Session Committee On Transportation
Funding

Measure, Appointment or Topic: HB3991

As a resident that was born here in Oregon. I've grown tired of our leadership that thinks they no longer have to listen to the citizens of Oregon. We have told you no before and even have voted things down and you think that you know better and override the will of the people. Now with this transportation bill you are doing it again. I ask you as an Oregonian to stop wasting our hard earned money on pet projects and first focuses on the things that keep our state running. Instead of passing more fees and taxes. Cut areas that are not a necessity. With my budget I don't turn to my employer and tell them I need to add a fee for me working there because I need to keep my streaming service. Like wise if we need road's and maintenance but the people are saying no to more fees and taxes then you need to trim the fat and reduce per projects to make sure the needed things are covered. Please listen we are growing tired of this and will choose to elect individuals who will once again listen to their constituents
