Dear Joint Special Session Committee On Transportation Funding,

I am writing in strong opposition to HB 3991. While Oregon's transportation infrastructure is definitely in need, burdening Oregonians with additional taxes and fees cannot continue to be the go-to solution. Especially in this case, where 55% of the current gas tax is going towards debt and administrative positions are being funded while necessary functions are being threatened. Please work with what is already available by prioritizing needs over wants, just like the average tax paying citizen is forced to do. Let's move away from special projects and focus on maintenance of our current infrastructure as we work towards economic stability.

Sincerely,

Cheyenne Love
