1. I want the officials be doge and audit.
2. And official can have the power to decide a major change without consulting the people they work for us no the other way.
3. This governor prefer to spend money in all that parades for lgbtq people but we have mayor problems in our city like drug addicts and the homeless everywhere.
4. Why this officials earn money like they doing like a really hard work when they don't. They don't even have the mental capacity to make right decisions we need to see who is doing there job and who is not and if we don't like it need to be removed from the sit even the governor that for sure is doing the worts job ever need to be doge too.
5. We need to bringing back safety people don't even respect police. We need some tough love because we need to bring respect back because as a society we failing the youths.
6. We let kids be kids and stop with all the nonsense of making our kids indoctrinated with all that lgbtq ideology if my son want to be gay if he decides one day it's gonna be his problem but before let them be kids.
7. The concrete they put in the middle of the streets need to be removed because we are a lot of driver without space to move I don't know who was the smart to do that knowing we going to be more people in the state and then they do that and I belive they did that to put some money in their pockets.
8. They need to be smart about the construction work in the road they send 5 people for a simple project that's insane and the official are not paying that the tax payers are doing so we need intelligent people in the sit.
9. The education system is failing and we need to better prepare people no incompetent people who is chose base of the ideologies they have right now.
