

Concerning HB-3991:

I am strongly opposed to HB-3991. I am a retired mechanical engineer, I live in Dallas, Oregon. It's amazing to me that due to a super-majority, the Democrats smugly do whatever they want, whether its good for the State of Oregon, whether the constituents are opposed or not.

I would like to know, what happened to all the money the ODOT already has. I recall several bills we voted on where if we didn't pass it would be a disaster. What happened to that?

Why did you not even consider the responsible amendments to fund ODOT without the massive tax increases?

Why were the recent chip seal projects performed by ODOT equipment and forces, instead of private business performing these tasks? When I was in private business, it was impossible to compete with the State, just another sore subject.

When is enough, enough? It's no mystery why so many good, tax paying, people are moving out of the state, or half the state wants to split off from Oregon. Oregon is represented by Portland and Eugene, the rest of us in the state can just go pound sand, in your opinions.

This HB-3991 is just another example of how the democrats are moving on destroying this once great state.

Harold M. Spence
