I oppose this tax . It is under the guise of supporting vehicles but we all know Oregon is anti-driving.

I am already struggling on a fixed income refusing to resort to govt subsistence. If I kept more of my own income I would have a better life.

Right now I am in a 1910 house needing lots of maintenance and updates but I have to budget and have to live within my means.

Apparently the State of Oregon, to include our local agencies do not know how to budget nor do they know a scam when they are confronted with a scammer.

At 67 my parents were not thinking about a future living out of their car but that is what I often think about for my future in my 80's because keeping my home and bailing out govt agencies that FAIL to understand budgeting continue to rape me of my income.

Oregonians spoke against this bill overwhelmingly and still this is a threat to us and Kotek is refusing to listen to her constituents. She blames Trump for inflation when she is a huge contributor of inflation through taxation.
