Oppose to HB 3991: I'm a senior, living on a fixed income and I'm stretched to the limit financially. I've already had to cut back on food, utilities, insurance, gas, and I'm currently behind on my property tax. You're pushing us seniors into foreclosure and possibly losing our homes & bankruptcy. Seniors are not the only ones who would suffer if HB 3991 is passed.

HB 3991 would affect families who are also already stretched beyond their limit. Raising gas prices, transportation and vehicle prices would put phycological and financial pressure on parents who transport their children to and from school, church, sport actives, social events and community involvements.

Why are you asking us to pay higher taxes to give money and trust the State, who has a history of failure and corruption? Oregon is one of the highest taxed states already and now you try to throw this back-door tax increase on us that ignores the Constitution!

If ODOT can't account for \$1.1 Billion, they should not be trusted with more money! Why should we be taxed beyond our limit and made to cover for ODOTS stupid blunders?
