Measure, Appointment or Topic: HB3991

8 years ago, the same old rhetoric was spewed about how we have to pass a transportation package or else the roads will not be maintained, everything will fall apart, and the world will end. 8 years later, another manufactured emergency now exists because you waste all the money on pet projects that don't produce anything without any sort of accountability. What does the auditors office do? Why do we have an auditors office if nothing ever changes? Why hasn't the Oregon DOJ investigated where all the money has gone? Oh yeah, it is because they are all of the same ilk. Now you want the taxpayers to bail you out again so you can waste more money on who knows what this time. Rinse, recycle, repeat. I hope voters finally wake up and see what you are doing. It is time for change in this State.
