

Submitter: Soleil Ammon

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

As you sit there weighing your decision I would ask you to question yourself honestly, would I or a loved one in the same position as all of the people whom are in it now, want or need these benefits? That is all that needs to be asked, this is not that complicated. Please give them what they need and deserve. When it comes to a labor dispute, individuals deserve to feel supported and be able to pay their bills when fighting for a better future for themselves and for other people in that field. It is all about bettering the future. Thank you for your time.
