Measure, Appointment or Topic: SB916

RE: Support for SB 916

To the Senate Committee On Labor and Business,

This benefit is imperative to helping workers stand up for our rights by assisting us with funds to keep our homesteads running without running the risk of becoming delinquent on payments like our mortgages, health and car insurances, and much needed medications. Speaking of which it would be very beneficial to be able to enroll in healthcare through the state while we are on strike, if it lasts past our current coverage.

Please keep in mind that we are healthcare workers who have jobs and are just standing up for better conditions for our patients and our coworkers, because we understand that we never "nurse" alone.

Please pass this bill as it affects us all.

Thank you for your consideration,
Rosalyn RN
