

Submitter: Kari Ballinger

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

Workers that are striking and advocating for better conditions still require some sort of income to boat for their basic needs and needs of thier dependents. If we are not able to pay for these expenses. Large corporations can take advantage and take thier time making decisions while we bleed any savings we have squirled away. Please consider aiding striking workers and allow them to apply for unemployment.
