RE: Support for SB 916

To the Senate Committee On Labor and Business,

I am registered nurse working at PPMC. It has been very challenging financially during the strike. I have a mortgage and other bills to pay. I have also been sick and the medical bills kept coming. I have depleted my savings.

It would have helped if I had unemployment insurance for striking workers. Please vote for this bill and help us all to have peace of mind.

Thank you for all you do,  
Euphrasia, RN
