RE: Support for SB 916

To the Senate Committee On Labor and Business,

I am a single mom with two kids still needing my assistance. One in college and one just graduated from college. I'm depleting my savings and running up my credit cards to survive during this strike. I feel that when employees are being pushed out of their jobs due to unethical working conditions, we should be able to collect unemployment wages.

Thank you for accepting my testimony and I look forward to your support.
Heather Davis RN
