RE: Support for SB 916

To the Senate Committee On Labor and Business,

I have been a RN for 35 years, working at Providence for 32 years and caring for Oregonians as a resident of this state for 38 years. I urge you to pass SB 916 / HB 3434 because nurses are the frontline safety net for patient care, yet we are being forced into financial hardship simply for advocating for safe staffing and fair wages.

Thank you for accepting my testimony and I look forward to your support.
Jessica RN
