

Submitter: Yandy Roman

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

SB 916 does not give power to the people. It gives power to the Unions which should be the ones that support the employees in the event of a strike. I strongly oppose this bill and will never vote for a politician who votes for this bill regardless of their political party affiliation. This will drive up the cost of living because I'll Will increase the unemployment tax that business pay and they will end up passing it on to consumers as a cost of good. We need to start thinking on how we are going to reduce the cost of living, not increase it.
