

Submitter: Andrew Johnson

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

This is an abuse of the unemployment system. Workers who choose to strike are not unemployed they just refuse to work under the terms of their employment contract. This is just pandering to the Union lobbyis who make huge contributions to the Democratic Party & should not be allowed to undermine a system which is already over burdened by economic situations beyond an employees control. Please do not abuse this program! Everyone should vote no on this pice of legislation!
